STS ADDITIVE MANUFACTURING

ROBUST ADDITIVE
MANUFACTURING
SERVICES

OUR COMPANY

When it comes to 3D Printing, the only limit is imagination, and the STS Additive Manufacturing team's imagination is vast. If you need a 3D-printed part, we can help you design, print and bring your vision to market using the only the best materials and the most advanced 3D printers.

KEY SERVICES

- Engineering Support
- DFAM (Design For Additive Manufacturing)
- 3D Scanning
- Prototyping Solutions
- Short-Run Production
- Metal and Composites Printing
- End-to-End 3D Printing Services

**OUR COMMITMENT
TO INNOVATION HAS
MADE US AN
INDUSTRY LEADER.**

ENGINEERING

Did you know that our team offers robust design for engineering services at extremely competitive rates? We can help with mechanical, electrical and reverse engineering at a moments notice. Contact us today to learn more.

DESIGN

Need DFAM (Design For Additive Manufacturing) support? STS Additive Manufacturing can work with the CAD system of your choice. Contact our team to learn more and / or request a design quote.

SCANNING

Our team's scanning services have been optimized to meet the needs of design, manufacturing and metrology professionals. We provide the most effective and reliable way to acquire accurate 3D measurements of physical objects anywhere.

IT'S THAT EASY

If you need a 3D-printed part, we can help you design, print and bring your vision to market using the only the best materials and the most advanced 3D printers. We'd be happy to assist with all of your additive manufacturing requirements. Contact us today to learn more!
